## Well Known Old Timer Passed Away Saturday

Funeral services were held on Monday, August 19, at 2:30 p.m., for Mrs. Alec Fife, who passed away in the Coleman Miners' hospital on Saturday, August 17, at 5 a.m. The funeral services were held from the United church, Coleman, with Rev. McKelvey of Blairmore officiating.

Mrs. Fife, a well known oldtimer of Coleman for the past 33 years, was born in Arbroath, Angus, Scotland, and came to Canada in 1913, residing in Coleman. The deceased took no prominent part in community activities.

Left to mourn her passing are her husband, Mr. Alec Fife, and four daughters, Mrs. Robert and Mrs. Ford, of Coleman, and Mrs. Oliver and Mrs. Morency, of Blairmore.

Interment took place in the Union cemetery, Coleman. Pallbearers were Dave Robert, Alec Morency, George Ford, Roach Oliver, Ronald Fife and Norman Ford. Hymns sung were "Jesus Lover of My Soul" and "Rock of Ages." Mrs. Bannan of Blairmore was at the organ.

### CARD OF THANKS

We wish to thank Dr. E. J. Leisner and staff of the Coleman Miners' hospital, those who sent floral tributes, sent cards and letters of sympathy, loaned cars and all those who assisted in any way during our recent bereavement.

Mr. Alec Fife and Family.

### NEW RENTAL REGULATIONS FOR SHARED ACCOMMODA- TION OUTLINED BY PRICES BOARD

Effective August 15, landlords of shared accommodation may give a straight six months' notice to vacate terminating at any time the Wartime Prices and Trade Board has announced.

Previously, the six months' notice to vacate this type of accommodation could not end between September 30 and April 30.

The Board has also announced that a lease for commercial accommodation, as provided by Order 583, may contain a clause should the landlord and tenant agree, to the effect that it can be terminated by the tenant only at a time specified and agreed upon notice. Previously, the lease could not be terminated by either parties prior to the end of the five year term.

### MORE SUGAR NEXT APRIL

Present indications are that there will be no further change in the present sugar ration until next April. The Financial Post reports from Ottawa. Since acreage sown to the 1947 crop is substantially higher and since European out-turns are steadily improving, a considerable improvement in the Canadian ration might be possible at that time.

## Drinking Water Impure

Water consumers are advised to boil all water required for drinking purposes. The latest water analysis reveals the water to be in an impure condition.

COLEMAN LIGHT & WATER CO., LTD.

### COUPONS VALID

Meat coupons M40 to M50 and butter coupons R10 to R17 in consumer ration books will become invalid for the purchase of these commodities after August 31, the Ration Administration of the Wartime Prices and Trade Board has announced.

## Coleman Fish & Game Assoc. To Hold Competition Sunday

The Coleman Fish and Game Association held a very enjoyable fishing trip at the North Fork last Sunday, August 18. Prize for heaviest basket won by Jack Kinneer; largest speckled trout, 2 1/2 lbs., was won by Neil Fleming; largest grayling, 3 lbs., was won by T. Kobez.

The club will hold another competition next Sunday, August 25, at the South Fork. All members wishing to take part in this competition please hand in their names to Secretary J. Kerr by 6 p.m. Saturday, August 24. Cars will leave the Motordrome at 7 a.m. on Sunday.

### NORTHERN CUT-OFF TO SAVE CAR MILEAGES

If the proposed paved highway through to Dawson Creek BC, takes the route from Edmonton by way of Whitecourt to Grande Prairie, a distance of 100 miles would be cut off the present circuitous route, according to Hon. W. A. Falow, minister of public works.

The minister, who was a member of a delegation that made representations to the tourist committee of the Canadian senate as to the need of the paved tourist highway, expressed the opinion that the committee which would be called upon to make a decision would favor the Whitecourt route.

The unconstructed part of this road from Whitecourt to Grande Prairie already has been surveyed. The question of the province and dominion sharing the expense of the proposed highway now is under consideration at Ottawa. Officials of the Alberta Motor Association which is advocating the need of improving Alberta's highway system and bringing it up to a standard that would meet all traffic demands, including tourists, have expressed keen interest in proposals made at Ottawa. The whole situation is expected to be discussed when AMA directors meet.

Mr. and Mrs. John Salus accompanied by Mrs. S. W. Panek motored to Waterton Lakes Sunday.

## Coleman Dominoes Win Southern Alberta Intermediate Softball Championship

On Sunday, August 18, the Coleman Dominoes advanced to the finals of the provincial playdowns as they won a two-game, total-run series from the Medicine Hat Legionnaires by a score of 11 to 10.

The series provided power hitting, good pitching and brilliant fielding plays in the tenast series ever played on the local diamond.

Coleman won the opener in the afternoon with a score of 5 to 3 as Gianioris, Skura and Kovack drove in five runs by hitting homers. The Hatters outhit the locals 12 to 10, but good fielding afforded Bill Skura excellent support.

In the nightcap, won by the Legionnaires 7 to 6, the Dominoes outhit the visitors 15 to 12, but a seventh inning rally which netted three runs gave the Hatters a one run lead on the game. Kovack and Kur hit homers for the Dominoes and Broz for the visitors.

Trailing by one run with two out in the eighth inning Kur hit a long double and Skura singled scoring

Kur to tie the series. Skura stole second as two infield errors were committed, a heart-breaker for relief pitcher Paulson who had held the local batters in check up to this inning.

In the last half of the ninth the Legionnaires made a determined bid to copy the series. The first batter walked, but Kovack at rover made a beautiful running catch to complete a close double play to first. Skura walked the next batter, but Harrison grounded out, giving Medicine Hat a 7 to 6 victory, but Coleman taking the series with a total score of 11 to 10.

Bill Skura, Domino pitcher, fanned 15 Legionnaires in 18 innings, while Paulson, Legionnaire relief pitcher, fanned 10 Dominoes in 10 innings, a very remarkable pitching display.

The Coleman Dominoes will now meet Dalroy in the provincial finals. The date for this series has not been set as yet.

## Final Details Of Cenotaph Construction Agreed Upon

At a meeting of the Memorial Park committee held on Monday evening, final details of the Cenotaph were agreed upon. The Cenotaph will be of concrete finish with terra cotta in a marble effect. The names of the fallen will be carried on slabs or black granite with red granite trim. As the Cenotaph is to be erected to those who gave their lives in two wars, two like slabs will be placed one on either side. A similar slab to carry the inscription will be placed on the front. The base, which will be placed on a square of concrete, will consist of two steps leading up to the Cenotaph. The steps rising will be finished in terra cotta while the treads will be done in tile.

Material for the construction will be purchased through Mr. James Bennie, of Lethbridge, while the actual construction will be done by Mr. J. D'Appolonia.

It is the desire of the committee to get work on the Cenotaph started as soon as possible. While they believe that they have been able to get all the names of the fallen, they do not wish to omit anyone. With that in mind, here are the names, which at the moment, they will have been placed on the Cenotaph:

J. Rogers, G. C. Morris, P. Gandy, G. Kroesing, W. Harrison, W. Nimcan, W. MacQuarrie, L. J. Jankulak, T. J. Brennan, A. MacDonald, M. Rucha, F. Dickson, R. McLeod.

Any person who knows of any name which should be included are asked to get in touch with either D. Daly at the Coleman Legion or with Wilmer Cox at the Empire hotel. However, the committee must have all the names by the 29th of this month.

Mr. and Mrs. R. Vincent and family are leaving today to spend their vacation in Calgary and Banff. While in the city they will be the guests of their daughter, Mrs. Richard Green.

### THE BLAIRMORE ENTERPRISE UNDER NEW MANAGEMENT

The Blairmore Enterprise has been sold by the Estate to Mr. "Ruddy" McLeod, employee of The Enterprise during the past twenty-two years.

Mr. McLeod has since changed the name of the paper to The Blairmore Graphic and will bend every effort to give Blairmore an aggressive weekly which will record the weekly happenings of the town.

## Police Court News

Following is Police Report for the months of June, July and part of August:

### Court Cases

Five for being intoxicated in a public place and making a nuisance of themselves. Fined \$20 and costs; the fine will be refunded to the Town of Coleman.

One for theft of car. This boy being a juvenile was given a suspended sentence of three months and ordered to go to Sunday school every Sunday.

Four for fighting in public place. One for beating board bill. Was brought back from Blairmore.

Three under the Vehicle and Highway Traffic Act.

Six under By-Law 211 of the Town of Coleman for not parking parallel with the curb. This By-Law went into effect on May 20. I warned the drivers of cars to park parallel until July 4 or 5. After that date I started to leave tickets on cars breaking the By-Law to report to the police on a certain date, which five of them did. One made some noise about having a ticket put on his car, but this man paid the fine of \$3. If one is allowed to angle park, the others have just as much right to do so.

### Thefts

One wheel and tire was reported stolen; tools were reported stolen; and one dress was reported stolen from a store in Coleman. Five places were searched under search warrant but none of the stolen articles was found. This of course necessitating time and information as to where to search, and the owners of the stolen articles not caring to sign their names to search warrants, even though causing trouble and expecting to obtain stolen articles just for the asking of police for same.

August 7: Went to Cranbrook to pick up Norman E. Hansen for false pretences. This man will come up for trial on the 16th of this month. This man issued cheques, when presented at the bank the cheques were returned marked NSF. I had to get permission from the Department of the Attorney General at Edmonton to bring this man back, also had to write the BC Police to pick him up and hold him until an escort came for him.

### August 3, Rodeo Day

I might say that I was asked to get two or three men and have them sworn in as special constables. I asked quite a number of men if they wanted the job, but I had a hard time to get even two. Mr. Walter Cieslak and Mr. Aloyse Krywolt. And they were two very good men; with Joe and myself, made four of us. These men worked from 9:30 a.m. until 3 a.m., at which time I drove the boys home after working seventeen and one half hours. I might add that when the beer parlors were opened we visited these places very regularly. There were a few treaty Indians who had to be ejected from the beer parlors and a few other men. (Continued on Page 6)

## Forest Ranger Boulton Warns Of Fire Danger

Fire danger in the forests is reaching a critical stage due to lack of moisture supply, according to Fire Ranger Harry Boulton.

The hot weather of the past few weeks has served to increase the fire hazard and Ranger Boulton issues his annual warning to frequenters of the forests to leave nothing to chance when extinguishing their camp fires. "Thoroughly drench the camp fire" states Mr. Boulton. "So often a fire appears dead only to have a slight breeze shortly after kindle hot embers which in turn burns the vegetation around it and a serious and costly fire may have been started."

To smokers he warns not to throw away lighted matches carelessly. "Run your thumb up along the burnt portion and thus make sure the match is made harmless." It is many years since a costly fire occurred in this neighborhood and the hills are once again being covered by young trees where the last forest fire occurred.

### INDEX FOR WAGE RATES IN CANADIAN INDUSTRY

Wage rates in the industries of Canada continued to rise during 1945, according to the index number based upon preliminary compilations made by the department of labor. Figures were released by the Hon. Humphrey Mitchell, minister of labor.

The general index, covering rates in the six main industrial groups, rose 2.8 points from 1944— from 137.5 in 1944 to 140.3 for 1945.

The greatest increase in wages has taken place in the logging industry. In 1944 figures showed 146.1, while in 1945 the index increased to 161.4 for a gain of 15.3 points over the previous year, or a total increase from the basic year, 1939, of 61.4 points.

Transportation and communication had moved up from 127.6 in 1944 to 129.9 in 1945, showing an increase over 1939, of 28.9 points.

Among the other industries, wages in mining showed an increase of 34.8 points in 1944 over the basic figure of 100 in 1939. In 1945 the wages showed a 1.4 gain to bring the final figures to 136.2. Manufacturing figures increased 2.1 points in 1945. In 1944 the index stood at 141.1 and the increase in 1945 brought it to 143.2 for a total increase of 43.2 points since 1939.

Construction in 1944 had risen 27.6 points since 1939, which brought the total for that year to 127.6 points; a further rise in wages of 1.5 points brought the index to 131.1 points in 1945. Service wages in 1944 had risen 28.9 points since 1939; in 1945 these wages increased 7.2 points to 136.1, or a total increase of 36.1 points since 1939.

During this period, 1939 to 1945, the wage index for the general average increased 40.3 points. The cost of living index during the same period increased 19.9 points.

Mr. and Mrs. Paul Brunchak, of San Francisco, California, are the guests of Mr. and Mrs. Joe Mayerchak. The former is Mr. Mayerchak's cousin, whom he has not seen for twenty-five years. Mr. Karl Mayerchuk is also a cousin.

# "Till the END OF TIME"

Starring:  
DOROTHY MCGUIRE  
GUY MADISON  
ROBERT MITCHUM  
BILL WILLIAMS

A returned war hero...a girl back home. New hope in each other's arms...new love in each other's heart...Till the End of Time!

WORLD HAPPENINGS  
BRIEFLY TOLD

Britain's oldest serving Naval officer—Cmdr. Henry Molray, O.B.E.—has been "demobbed" at 72.

Gen. Eisenhower said the outstanding leaders of the Second Great War were Franklin Delano Roosevelt and Winston Churchill.

British museum has offered to lend a mine detector to help in a hunt for buried church plate at Much Wenlock Abbey, Shropshire.

Canadian-built mixed-traffic locomotives now are operating on the Belgian national railways, first of 300 ordered from North America.

William Young, 84-year-old retired London shipping agent, said after his first flight—a 12,000 mile trip from Sydney: "I enjoyed it very much."

A chime of bells is to be hung in the regimental chapel at Warley, Essex, as a memorial to officers and men of the Essex regiment killed in the war.

Hiller's personal standard, the silk-en swastika he boasted would fly over Buckingham Palace, was on view at the "Germany Under Control" Exhibition at London.

A conveyor belt to unload cargo from airplanes in flight, designed to aid airmen in parachuting supplies to the ground in a few seconds, has been developed for discharging mail and other cargo.

Buyers from all parts of the country paid £48,500 (\$218,250) for 1,430 used army motorcycles at a three-day auction in Stafford, Eng. One had a bird's nest complete with eggs in the gas tank.

## That Trip Overseas

Much Reduced Fares Are Expected When Boats Resume Service

By Frank Swanson in Ottawa Citizen  
Ocean travel today, which is not different from that experienced by thousands of Canadians during the war, soon will begin to return to pre-war standards. In dry docks and graving basins at ports around Britain's coastline, miniature armies of workmen are busily engaged in restoring war-battered troopships to their pre-war state of elegance and comfort. By late September or early October, the first is expected to start regular passenger runs in the North Atlantic service between New York and the battered ports of Europe.

Coincident with the reconversion of some of the world's most famous liners out of their anonymous coats of battleship grey, plans are being drawn up for new and more modern ocean greyhounds. So far, most of these plans are in the blueprint stage, but their ultimate development will foreshadow the shape of ocean travel of the future.

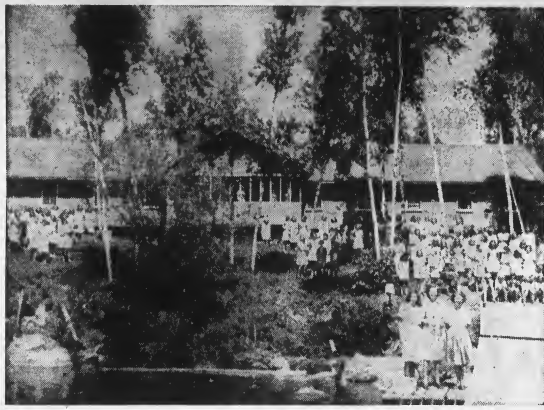

One company has plans for the construction of two liners of the 30,000 ton class and with speeds of 22 knots, which would carry 1,000 tourist passengers and 500 cabin passengers at a one-way fare from New York to Britain of \$40 for tourists and \$80 for cabin-class passengers with meals extra, or a choice of adding \$10 to the tourist fare and \$20 to the cabin fare for an all-inclusive rate.

One of the features of these two ships, which together would form what would be known as the Atlantic Lane, would be cafeteria service for passengers to cut down the overhead cost of the trip. The cafeteria proposal gives an indication of the streamlined terms along which ship owners are thinking these days in their efforts to cut down the pre-war trans-Atlantic fare which was the stumbling-block in bringing ocean travel down to the level of the pocket-book of Mr. and Mrs. Average Citizen.

Realizing the appeal post-war air travel is bound to have owing to the immense time saving involved, shipping interests in this country are examining the feasibility of construction of new liners of the Queen class. Opinion is that no further ships of this size will be constructed since the passenger bound for Europe or North America in a hurry is almost certainly lost to the air lines. The problem, therefore, is to find another type of passenger to replace him, but at a much reduced fare.

It will be late this year before the North Atlantic passenger services return to anything like pre-war normality. In the meantime, the simple, anxious to cross the Atlantic must travel in troopship accommodation in an army atmosphere of austerity and of constant stream of orders issued practically around the clock over loudspeaker systems, but with the knowledge that he is lucky to be there at all because of the huge waiting lists on both sides of the ocean which have piled up during the war years.

When travel does become easier toward the end of the year, and with next summer's anticipated record tourist rush to Britain, for which bookings are already beginning to pile up from all parts of Canada and the United States, the world should get some indication of what post-war ocean travel will be like in the face of air competition and an almost universal demand for a cheaper fare.

MANITOBA PIONEER CAMP, connected with the Inter-Varsity Christian Fellowship Association.

CATTLE KILLED BY LIGHTNING—At Acton, Ont., 21 registered Jersey cows were instantly killed by a bolt of lightning as they huddled beneath a tree on the Cleverdale dairy farm of A. J. Murry. The bark of the tree was slashed by the bolt. Fourteen cows were killed at Colbeck, Ont.

## Medical Triumphs

Penicillin Has Given Top Priority During the War

A few years may show that in the balance sheet of a world war, the cost in human lives has been numerically offset by the saving of life as a result of medical triumphs in wartime. Penicillin, which spells life for millions statistically condemned to die from specific diseases, is hailed by medicine as the most decisive of those triumphs. Manufacturing Penicillin is the No. 1 medical undertaking of the day in those countries which during wartime joined in developing this wonder drug—Britain, the United States, Canada and Australia.

A drug, for the first time in the history of war, was given top priority over all other forms of war production in Britain and the United States. The help of the industrial resources of the United States was sought and given on a large scale. Australia drew additional enthusiasm from the fact that one of the co-discoverers with Sir Alexander Fleming was Sir Howard (Walter) Florey, Australian-born and a graduate of Adelaide University (both were knighted for their work on penicillin). But more especially the project in Australia was spurred by the urgency of the needs of the New Guinea campaign and Australia's position as the nearest supply base for the Pacific war.

Those who are directing production in Australia's Commonwealth Serum Laboratories say the reserves now in hand and the plans for expansion are such that it should not be long before there is sufficient for general issue for all purposes.

Penicillin is made today in a \$540,000 laboratory completed last year. In terms of penicillin manufacture, it is called mass production, but so great is the production problem of the drug, that a day's yield from the efforts of several hundred workers, skilled and unskilled, fills a single large bottle before being reduced to powder form.

That is a problem that is occupying the attention of Australian, as well as overseas researchers—to simplify and reduce the effort required for penicillin. That, and the vast new world of therapeutics that has been opened to them.—Ottawa Citizen.

## HEALTH SIGNS

Crossness and irritability are infallible signs that the family doctor should be consulted about a child's health, declare health authorities at Ottawa. Department of National and Welfare officials list these signs of good health: Bright eyes, clear skin, good posture, keen appetite, alertness, vitality and pleasing disposition. Parents they say, will see in these signs, confirmation of medical opinion on a child's state of health.

Man utilizes only about 25 per cent. of the oxygen inhaled in a breath of air.

## British Air Liner

Will Make A Tour Of Canada, U.S. And Latin America

BRISTOL, England.—A standard production model of the Bristol 170, first post-war British civil airliner to obtain an unrestricted certificate of airworthiness, soon will tour Canada, the United States and Latin America on a demonstration tour.

The plane, first flown last December, now is in quantity production at the Bristol Aeroplane Company plant in two models—the passenger Wayfarer and cargo-carrying freighter.

Its manufacturers have said they believe it will prove suitable for use in the Canadian Northwest since its twin-engines give it ability to operate from small airfields.

## Wild Buffalo

The Last One In Oregon Has Been Shot

ASHWOOD, Ore.—The deer and the antelope still play in Oregon, but no longer will the buffalo roam this great Western state.

The last wild buffalo in Central Oregon was killed recently by members of the Sisters Rodeo Association at the request of Roland Gridley, rancher, who said the old animal had been damaging the Friday ranch near here.

The buffalo was brought into Oregon 15 years ago after original species had been exterminated. The buffalo was shot from horseback by George Wakefield and Vernon Peck who used 30-06 rifles.

## Youth Training

The Need For Discipline Is Greatly Needed

The future of the British Empire rests with the youths of today, who should be given every opportunity to develop their talents and make good, says Field Marshal Viscount Montgomery, chief of the Imperial General Staff.

This preoccupation with youth is reflected in almost every speech by the famous wartime field commander now responsible for directing his country's military strategy.

"When the state has no further use for my services I shall devote the remaining years of my life to the work of training youth," he said recently, "so that they may become worthy citizens of our great and glorious Empire."

"The goal we should aim at is this: to train our boys to take their proper places in the community according to the abilities of each, so that they will be able to take over from our older men and lead the country in peace."

"I mean by this that each boy must be given a chance to develop his own particular talents. He must be taught to be master of himself and captain of his soul. He must not be stifled for lack of opportunity. He must be given a chance to make good. Each boy must be an asset to the nation. In these days we can afford no liabilities."

To the boys themselves—and he has spoken at many school functions since becoming CIGS—the field marshal constantly emphasizes the need for discipline.

"Our future as a nation may hang on leadership and character," he said in one such address last June. "The youth of today have got to be taught discipline. The cause alone without the iron hand of discipline is no good. If that is done we shall be all right."

One way in which this spirit could be inculcated, he said, was while young men were undergoing their compulsory service in the forces. Some 160,000 18-year-olds will be entering the British Army yearly and "our responsibility is surely to arrange that during that time we teach them not only soldiering but also those things which will ensure that we return to civil life better men in every way."

"We may teach them leadership, discipline and the true meaning of morale."

## A Double Purpose

Applause Does Something More Than Give Singer Confidence

An admirer of the late Ernestine Schumann-Heink was congratulating the great singer upon her success in a certain operatic role.

"I suppose," ventured the music lover, "that applause is very important to a singer. It must help to give her confidence."

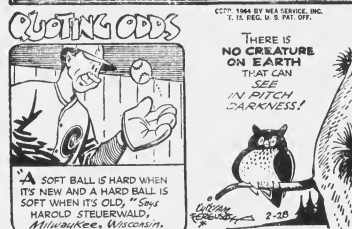

"Confidence it gives, yes," replied the prima donna in her faltering English. And then with a broad smile she added: "It gives, too, something even more important. It gives a chance for a singer to catch her breath!" — Christian Science Monitor.

## IS WELL NAMED

Old Faithful, a geyser in Yellowstone National Park, which has been erupting on an average of every sixty-five and a half minutes for years, shoots from 10,000 to 12,000 gallons of scalding water about 150 feet at each eruption.

## CAN WE PREVENT FAMINE?

That is the heading of an article by Sir Arthur Salter in an issue of "Picture Post" London, England, just sent to us—dated May 1946.

As an authority (Sir Arthur Salter was deputy-director of U.N.R.R.A. 1945-46) he goes on to point out that real famine which may bring starvation to millions now faces a large part of Europe, India and the Far East.

As a unit of measurement applied to every individual the daily consumption of calories is the universal one.

A summary of the chart accompanying the article, gives the food intake of the various peoples at that date. Figures show average daily consumption in calories: 1500 means severe shortage. 1000 means slow starvation.

U.S.A.	3000-3400
South America	3000
Denmark	2500-2900
Sweden	2500-2900
Switzerland	2450-2900
Australia	2900
United Kingdom	2450
New Zealand	2900
Turkey	2900
Norway	2300-2500
Holland	2300-2500
Belgium	2300-2500
France	2300-2500
Finland	Less than 1900
Hungary	Under 1900
Spain	Under 1900
Rumania	Under 1900
Portugal	Under 1900
Italy	1400-1600
Bulgaria	Under 1300
Czechoslovakia	Under 1300
Albania	1200-1700
Austria	1130-1440
Greece	900-1750
Yugoslavia	770-1900
India	1200
China	1200
Russia	Not known
Germany, U.S. zone	1650
French zone	1650-1440
British zone	1043

As those above figures were quoted (in May 1946) there was great hope that crops in the U.S.A., Canada, etc., could be supplied to the hungry, but great difficulties are being experienced from many angles, not the least of which are upset conditions and paralyzed communications in the countries which need the most help.

Even England is rationing bread and cereal grains now. The monsoon rains failed in the East, and no monsoon means no rice which is the food of millions.

"Can we prevent famine?" for those poor unfortunate who did not expect war, did not start it, but are to be its victims by the million nevertheless.

## NEW HOCKEY LEAGUE

CALGARY.—The Kootenay Hockey League is no more, but a new circuit called the Western International Hockey League will be formed with five teams, Trail, Nelson, Kimberley, Spokane and Los Angeles. This announcement was made by Fred Holger, manager of the Los Angeles Ramblers, who was in town looking for hockey players. Mr. Holger said the new league opens Oct. 26.

## NURSES!!

This fine medicine is very effective to relieve pain, nervous distress and weak, "dragged out" feelings, of "certain days"—when due to female functional monthly disturbances. Worth trying!

## OUR COMPLETE SHORT STORY—

### GUARDIAN OF THE LAW

By GEORGE C. CHERNISH  
Copyright  
Wheeler Newspaper Syndicate

THE commissioner said wearily. "Look, Steve, we've got to have action—understand? The crime wave is growing worse by the hour. I know you're busy, but that won't do. We've got to get the mayor. He's demanded results. Now it's our move."

Police Captain Steve Brant leaned back in his swivel chair. Piles of newspaper clippings and photos of wanted men littered his desk. A detailed map of the city was spread out before him.

"These hold-ups are all the same," continued the commissioner, "and pulled by the same two thugs. How they have the nerve to stick around here so long, is beyond me."

"We'll get them," Steve's voice was resolute. "These things take time, you know." Commissioner Drury stiffened. "I agree, but you're taking too long. Far too long."

"It can't be helped. We're not miracle-men."

"I don't care what you are. You better do something quick or make room for someone who can."

Steve's retort died on his lips as the commissioner spun on his heel and left. Steve made a mental summary of the case as it stood to date. About a month ago, the two men believed responsible for most, if not all, of the current hold-ups, had pulled their first job. Termed the "Black Hoods" by the local press, because of their disguise, the sinister pair had embroiled the entire city. So far, the police hadn't a single clue.

An irate voice—"This is B. J. Turner, over at the East End Grocerette. . . Say, that new cop you took on sure is a dilly. . ."

"What's your trouble?" "That cop's sure. He takes a notion to pick on me about every other day. . . I'm getting fed up, captain. . . The swelling in front of my nose is a half inch lower than the by-law allows. . . He wants to give me a summons. . ."

Steve suppressed a chuckle. "Don't let him worry you, Turner. I'll have him smarten up."

"You'd better," abruptly, "or I'm seeing the mayor."

Two minutes later, Dr. Kittering, the county coroner, barged in. His sharp features were flushed. He shook a stubby forefinger at Steve. "That rookie you hired is absolutely stupid!" he thundered. "Can't you do better than that?"

The corner rushed on: "I had to go through a red light on an emergency call, and the young fool trailed me and gave me a ticket! I explained the situation to him, but it didn't mean a thing."

Steve shook his head. "I'll look into it," he promised. "We've short-handed these days, and a lot of fellows we take on aren't grade A by any means."

"You can say that again!"

When the rookie patrolman came in off the beat that afternoon, Steve ran for him. He came in hastily, Steve said sharply. "You'll have to brighten up a bit, Stark. Learn to use your noods!" He explained about the complaints.

"But they broke the law, sir!" the rookie insisted.

"Technically—yes," Steve told him. "In the light of everyday common sense—no!"

Steve dismissed the rookie, shook his head dolefully and called it a day. A week later Commissioner Drury strode into Steve's office. "The hold-up last night, The Black Hoods again?"

Steve remained silent.

"I've just come in from the mayor's office," Drury went on. "He gives you a week to pick them up. He paused a moment. And that Stark kid. Fire him now. He's just a nuisance."

"He's Dan Stark's boy," Steve shook his head sadly. Dan Stark had been his best friend. And before he cashed in, with a gangster bullet in his chest, Steve had promised to see that his kid got a break.

As the commissioner left, Steve made up his mind. Let them do their own dirty work. Good cops weren't made overnight. They all had to learn.

He rang for a prowler car brought from the garage. This might be his last day; his last chance to view the city from the seat of a police cruiser. Drury was ruthless. More than one cop had learned that to his regret. As he prepared to leave the phone rang. The desk sergeant was on the line, bubbling over with excitement. "The Black Hoods—young Stark caught 'em! He needed help but he gets the credit—later found their weapons, hoods and all!"

"A marvelous piece of work," the commissioner was saying. "Who tipped you off, Stark?"

The rookie shook his head. "Nobody, sir," proudly. "I arrested them under Section five, Sub-section two of the city by-law."

"Hunderation!" Steve gasped. "Section five?"

The commissioner looked puzzled. "What's that cover?"

"Spitting on the sidewalk," the rookie said.

## Wheat Is Important

But Oats, Barley And Rye Excel It In Grass Value

New rural varieties now being introduced are destined to make oat growing in Canada a safer and more profitable occupation and thus place the crop as such on a still higher level among Canada's great natural assets, said Dr. L. H. Newman, Dominion Cerealist, in discussing Cereal Grains, in the Agricultural Cereals Review.

While wheat remained the most important single grain by reason of its almost universal use as human food, oats and barley, and to a lesser extent rye held first place as a group from the standpoint of animal nutrition. In gross value they actually excelled wheat to a slight degree, Dr. Newman pointed out, but they did not play a very important part in international trade as they were largely consumed in Canada by farm animals.

In feeding value for live stock, oats held a very high place. They ranked first in popularity as a horse feed and stood high as a food for cattle. They actually constituted the basis of most of the grain feeds used in Canada and might be regarded as the most important feed grain.

As human food, oats, chiefly in the form of porridge, have always enjoyed wide popularity as a nourishing and palatable food. Ranking high in vitamin B, they were in a position to make substantial contribution to the daily intake of this important vitamin. According to the latest milling returns available, oatmeal and rolled oats had a valuation of \$3,743.738.

## Daintily Demure

By ANNE ADAMS

Play and party frock for your little'uns! Sew BOTH these adorable versions! It's all done with Pattern 4564. Save by using remnants for contrast. Floral transfer included. Pattern 4564: 2, 4, 6, 8. Bust and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 115 McDermot Ave. E., Winnipeg, Man.

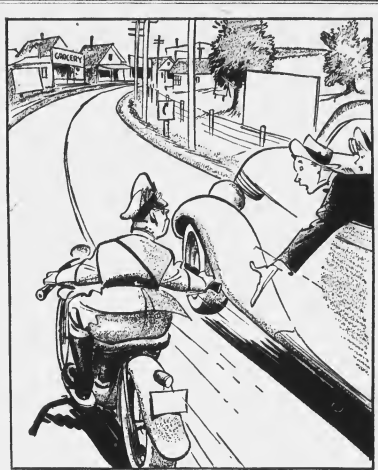

## New Heating System

English Engineer Devised Method of Using Water From River

A city electrical engineer in Norwich, England, has devised a method of using cold water from the river for heating. He has developed a heat-pump, employing the principle that compression produces heat, and has succeeded in maintaining a temperature of nearly 63 deg. F. in a five-story building. It is reported that the compression-heating costs about one-third as much as orthodox methods.

## Blended for Quality

# "SALAAM" TEA

"We were rushing to the grocer's before closing time. . ."

Imagine a week-end without delicious Grape-Nuts Flakes!"

"I can't imagine it either! Step on it and I'll provide a police escort to the store so you'll be sure of getting your malted, rich, sweet-as-a-nut Post's Grape-Nuts Flakes!"

"OK—here we go! Bring on that Grape-Nuts Flakes' good nourishment: carbohydrates for energy, proteins for muscle, phosphorus for teeth and bones, iron for the blood, and other food essentials!"

"They're good all right! That's because they're made of two grains—wheat and malted barley. And specially blended, baked and toasted for golden-brown delicious crispness and easy digestion."

"I think I'll get a couple of those giant economy packages."

Depot

Falconbridge Nickel Mines Not Bothering With Low Grade

TORONTO.—Falconbridge Nickel Mines Limited said it has no interest in a low-grade nickel deposit reported to have been found near Dar Es-Salaam, Tanganyika, and that it is not sending a representative to the area to examine the find.

The official of Falconbridge, which operates a mine in the Sudbury district in northern Ontario, said that C. H. Farnum, mentioned in a Dar Es-Salaam dispatch as the representative of the company who would examine the property, is a consultant who has at times acted for Falconbridge. However, he is at present in the United States and as far as the company knows is not going to South Africa.

## Real Old-Timer

British Ship Built In 1815 To Be Broken Up

Almost the last of Britain's wooden walls—the old ship Cornwall—is to be broken up at Gravesend on the River Thames and its timbers used for furniture. Built in Bombay in 1815, the Cornwall was launched as a 74-gun ship. In recent years it has been moored and used as a training ship for boys.

While last saw action when a bomb fell near it in 1940, ripping a hole in its hull. The German radio announced that raiders had "severely damaged a British warship."—Christian Science Monitor.

## Welcomed All Comers

Thomas Hardy, Famous English Novelist, Was Fond Of Cats

The great English novelist Thomas Hardy was very fond of cats. Once when two friends from America arrived for tea they found the novelist almost covered with cats. Three or four were on various parts of his person, other cats were near at hand and saucers of milk were noticed at different parts of the shrubbery. "Are all these your cats?" Mr. Hardy was asked, and he replied genially, "Oh dear no. Some of them are, and some are cats who come regularly to have tea, and some are still other cats not invited by us, but who seemed to find out about this time of day that tea is being served, so we have the pleasure of their company too."

## Green Cross

BASI-COP\*

(Tri-basic Copper Sulphate)

First time in Canada. A neutral but soluble copper compound making an ideal spray material for fungus control on potatoes, sour cherries, tomatoes, celery, etc. Contains twice as much copper as ordinary copper sulphate or blue stone, consequently goes twice as far. Also available as dust.

PRICES BOARD TELLS REGULATIONS REGARDING LICENSING OF BUSINESSES

The Wartime Prices and Trade Board warns all holders of business licenses that they must report all changes of address and of name to the licensing division of the Board.

Regulations of the Prices Board require all manufacturers, persons buying goods for resale, or operating a services business, to hold a license. Once this has been obtained any change in the business address, the business name, or any change or modification of the business must be reported within ten days of that change to the licensing division.

The director of licensing may cancel any person's license who fails to comply with these regulations, or who fails within sixty days of obtaining a license to comply with the regulations of the board concerning the fixing of the prices or who has not actually started up in the business in the manner he specified when obtaining the license.

### POLICE COURT NEWS

(Continued from Page 1)

We broke up several arguments which might have caused a lot of trouble if they had not been broken up. I received a complaint from Harwood Potter, from Cardston, that he had stolen from his truck parked on the Grand Union parking lot three bridges and one breast strap. This theft is being investigated and I do not know if I shall have any results or not. There were complaints of people going on the grounds and not paying the entrance charge. Until a fence is put around the park it will be impossible to collect the entrance charge from everyone.

Referring to the special constables they were promised a dollar per hour and I am presenting their bill for that amount respectively.

I might say there is an odd transient coming into town and these men have to be checked up and told to move on.

I might add that should there be necessity for wearing in special constables in future that badges be procured for them to wear.

William Antle,  
Chief of Police.

### MISCELLANEOUS SHOWER

About fifty guests gathered in the IOOF hall on Wednesday, Aug. 14, at a shower in honor of Miss Pauline Lucky, bride-elect. On entering the guest of honor was presented with a beautiful corsage by one of the hostesses. Whist and bingo were played, honors going to Mrs. J. Leporek and consolation prize to Mrs. Bator. A dainty lunch was served by the hostesses and the guest of honor was the recipient of many beautiful gifts, for which she ably thanked her many friends. The party broke up about midnight.

### VISITORS TO THE NATIONAL PARKS

Visitors to Canada's National Parks where a day to day record is kept numbered approximately 450,000 up to the end of July, according to a statement released by the Honorable J. A. Glen, minister of mines and resources. This compares with an attendance of approximately 600,000 during the whole of 1945 and is perhaps indicative of the increased tourist travel all over Canada in this first year of peace.

During the month of July alone 60,873 visitors passed through the eastern gateway into Banff National Park, Alberta, an increase of more than 18,000 over the same month last year. The other National Parks in Alberta also report similar percentage increases in the number of visitors. Waterton Lakes attendance figures jumped from 19,000 to 45,000; Elk Island, the home of the buffalo, from less than 10,000 to nearly 17,000; and Jasper National Park from 4,000 to 7,500 as compared with July of last year.

In Saskatchewan, Prince Albert National Park had 11,700 visitors compared with 8,000 in July 1945, and Riding Mountain National Park in Manitoba, had nearly 55,000, an increase of more than 15,500 over the same period last year.

July reports from the National Parks in British Columbia, Ontario, Prince Edward Island and Nova Scotia all tell a similar story—substantial increases over July of last year. For instance, Kootenay National Park in British Columbia, had an increase in visitors from 8,700 to 21,600; Point Pelee in Ontario, from 19,400 to 30,800; Prince Edward Island National Park from 17,000 to 21,000; and Cape Breton Highlands National Park in Nova Scotia, from 5,000 to 7,000.

A feature of this year's attendance at the National Parks is the number of visitors bringing their own camping equipment, including motor automobile trailers, and making use of the campgrounds which have been equipped for that purpose in all the National Parks. Superintendents report that these campgrounds have been used to a greater extent than ever before thus relieving the pressure on other park accommodation.

### Teen Town Notes

(Millie Bubnlak)

The West End Market seems to be a regular stopping point for all the truck drivers in town. Do they like the soft drinks sold there or is there something else that attracts them?

Eddy S. couldn't seem to prove that he was working at a lumber camp so he got his foot hurt and now he can show everyone his compensation cheque.

Lorna and her friend Maxine were seen riding horses out in the rain the other day. (The poor horses.)

Arden D. seen visiting one certain booth at the Rodeo quite often.

Joey claims he knows how to drive a car quite well, he just doesn't know how to park it.

We suppose Ken doesn't trust George's driving if he'd rather ride on the roof of "The Willet Run." The only question is: "Will it run with him on the roof?"

Betti D. and Betty H. looking very pretty leading the Rodeo parade on Saturday.

Billy C. has been asking for company while he is looking after his brother. Anyone wanting to apply for the job may contact Bill as soon as possible.

Many grim faces were to be seen on Monday morning when the Grade IX students got their results while the Grade X's and XI's looked on and patiently waited their's.

Chris. couldn't work at all the day after bowling four games in one night. The sad thing about it is that she didn't win any of them.

Attention! New fad: Boys are beginning to wear lipstick. Well, anyway, Joe L. was wearing it on Sunday.

We don't know if it's the West Coleman swimming pool or the boys (up there) that are so attractive, but Marge and Smush seem to like it up there.

Alleen meaking off for a dance when she was supposed to be selling hot dogs at the carnival on Friday night.

Frank G. thinking up a good excuse to come into the West End when he saw the pretty stranger walking in there, and wishing he didn't have to work that afternoon.

Anna Melusik getting a big thrill out of the affectionate embrace the clown gave her at the Rodeo.

...V...

### NOTICE

to Retail Stores and Barber Shops in Coleman

NOTICE is hereby given that a petition for a closing By-law having been presented to the council signed by the occupiers of at least two-thirds in number of the shops to be affected thereby, such a By-law has been passed by the Town of Coleman and is now in force.

This By-law requires every shop or place where retail trade is carried on and every barber shop in the Town of Coleman to be closed for serving customers at and after the hour of 6 o'clock in the afternoon of every business day except (a) Wednesday of each week when the closing hour shall be 12:30 p.m. or (b) the two working days immediately preceding Christmas Day when the closing hour shall be 7:30 p.m.

Any person committing a breach of this By-law will be liable to the penalties provided for in Section II of the Early Closing Act.

Dated this 14th day of August, 1946.

GLADYS LEES,  
Secretary-Treasurer,  
of Town of Coleman.

OTTAWA. — The Commons gave third and final reading to a bill amending the criminal code to change the method of selecting juries in Saskatchewan and Alberta. The bill will permit Saskatchewan to return to the practice of a 12-man jury and permit Alberta to retain six-man juries with an improved system of challenges.

2486

## WIDE VARIATIONS SHOWN AS THE WEST PROCEEDS TO HARVEST LARGE CROP

WINNIPEG.—Thousands of combines and threshing machines are moving over the grain fields of western Canada, harvesting what cautious farmers and crop experts hope will be at least a better-than-average yield this year.

If anything stands out in the reports from key points in the prairie provinces, it is a note of anxiety over conditions during the all-important period between now and the time when the last farmer greases his harvesting equipment and puts it away for the long winter. Excessive moisture and frost are two factors which qualify all crop predictions, particularly in Alberta where frequent north winds bring cold weather late in the summer.

In Manitoba, cutting and threshing has become general in the southern regions. Recent rains west of Winnipeg have made the going tough around Brandon, where warm dry weather is needed. An estimated 80 per cent. of the Brandon area wheat has been harvested, and about 50 per cent. of the coarse grains.

Combining around Saskatoon is expected to begin in about 10 days, although some cutting with binders now is underway. The crop is said to be a little patchy, but "as good or better" than last year's average yield. Most crops are running 15 to 20 bushels to the acre.

Southern Saskatchewan wheat matured a little too rapidly following hot dry weather in the latter part of July and early August. But overall conditions show the average crop to be 107, based on the figure 100 representing the province's long-term average of 15 bushels harvest from every acre. Last year the main figure was only 88.

Damage from a hailstorm in a strip between Coderre, southwest of Moose Jaw, and Alameda in the southeast corner of the province, has not been estimated, but early reports indicate losses at between 10 and 100 per cent.

Rain has held up harvesting of wheat around Moose Jaw, where the district crop now is expected to be about 22,000 bushels, coarse grains. Last year's final total was only 17,000,000.

The poorest reports come from southwestern Saskatchewan where prospects are said to be only fair. High winds have caused some damage to fields already infested with sawfly. Harvesting operations are underway at most points.

The peril of frost hung over Alberta last week, with light snow in

the Calgary region. Prospects previously were for a bumper crop of wheat and oats, although hail in the High River, Three Hills and Blackie areas has taken a heavy toll. The districts first wheat delivery was made at Granum.

In southern Alberta, yields are expected to show a wide variation, but will probably have a good average of 19 bushels an acre. Reports range from five to 64 bushels, the heaviest being in the southwest. The total out-turn may be almost double that of last year, when the average was only 11 bushels an acre.

### TO BREAK LAND

Chicago Engineer Will Attempt Winter Plowing In Peace River District

EDMONTON.—Winter plowing will be attempted in an effort to make 70,000 acres of land ready for spring seeding by veterans in the Peace River district. W. H. Rodenbeck, Chicago, chief engineer for the Yukon Corporation of Texas, said.

The American firm has contracted to clear and break 250,000 acres of virgin soil in the Peace River district for the re-establishment of veterans. They have taken over the Alberta government contract from Hartman Brothers of Seattle, Wash.

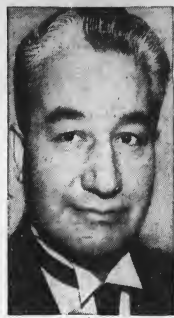

Mr. Rodenbeck said that 60 modern tractors and land clearing machines may already be on their way to the Peace River district from Chicago and Texas. Work on the land will begin immediately the equipment arrives, he said.

### CANADIAN APPLES

Millions Of Bushels Will Be Exported To United States

OTTAWA.—Negotiations have been concluded for the export of 1,000,000 bushels of packed apples and 2,000,000 bushels of processing apples to the United States, the Dominion agriculture department announced. An additional 250,000 bushels of either grade may be shipped at the option of the Canadian industry.

Canada's 1946 crop was estimated at 16,000,000 bushels, equally divided between eastern and western Canada. The department expected the domestic market would absorb 7,000,000 bushels as fresh fruit and between 2,500,000 and 3,000,000 for processing with at least 3,000,000 bushels likely to be shipped to the United Kingdom.

### WANTS VOTES FOR INDIANS

Brig. O. M. Martin, Toronto Indian and York county magistrate, urged that his race be given the right to vote in Dominion and provincial elections without loss of their present privileges when he appeared before the parliamentary committee for Indian affairs at Ottawa.

### SUGAR BEETS

Announce That Factory Will Be Built At Taber

LEATHERIDGE.—Philip T. Rogers of Vancouver and T. George Wood of Raymond, Alta., announced that a \$2,500,000 sugar beet factory will be built at Taber, Alta., by Canadian Sugar Factories, Limited, a subsidiary of the British Columbia Sugar Refining Company, Limited, of Vancouver.

Contracts for factory engineering have been let to the Stearns Rogers Manufacturing Company of Denver, Colo., and for building construction to the Dominion Construction Company, of Vancouver.

MOLOTOV GREETES MRS. BYRNES AT RECEPTION—Central figure in peace conference controversies, V. M. Molotov, Soviet foreign minister, relaxes at a U.S. Paris embassy reception. He chats with Mrs. James Byrnes.

### OPIUM DEN

Police Raid Building In Toronto's Chinatown

TORONTO.—Like a page out of the Fu Manchu mysteries was the way a Toronto police officer described the scene in a building in Toronto's Chinatown where a special narcotics squad arrested seven Chinese on a charge of illegal possession of opium.

A few minutes before they burst into the room they termed an illicit opium den, they had adzehammered their way into a Gerrard street rooming house and seized opium they said was worth \$30,000 at black market prices. Authorities said it was the biggest opium seizure in Canada in 10 years. One man was arrested in that raid.

The late Sax Rohmer, author of the fantastic Fu Manchu stories of crime on London's fog-shrouded river front, probably would have felt at home amid the exotic surroundings had he been with police who hammered their way through two steel-reinforced doors to enter the richly-furnished Oriental-style bedrooms around a club on Elizabeth street.

The officers said they found seven Chinese reclining on cots or on brightly-hued rugs on the floor or seated on wooden chairs. Over the interior hung a blue haze of smoke and, police said, three men were smoking opium.

Police said they seized an opium pipe and a lamp used to heat opium. In the bedrooms, they stated, they found a quantity of prepared opium.

### HEAVY TRAFFIC

SASKATOON.—With an increase of 14 per cent. in the number of passengers carried by the street railway in 1945 over 1940, the Saskatoon municipal railway has shown a greater increase in passengers carried than has any other city in Canada. G. D. Archibald, street railway superintendent reported.

## RESTRICTIONS ARE LIFTED ON THE DISTRIBUTION AND PURCHASE OF CARS

### SUPPORTS BYRNES' ATTACK

Strong backing for charges made by U.S. Secretary of State James F. Byrnes that Russia is attempting to dictate peace terms at the Paris conference came from Tom Connolly, shown here, chairman of the U.S. Senate foreign relations committee.

### ALL SUPPLIES LOST

Northern Outpost Of Hudson's Bay Company Destroyed By Fire

CHURCHILL, Man.—The Hudson's Bay company's outpost at Lake Harbor, Northwest Territories, has been destroyed by fire, word reaching here today. Lake Harbor is on the southern side of Baffin Land and about midway along Hudson Strait.

All supplies left there a short time ago by the steamship Nascopee were a total loss, the report said. Additional supplies will be sent from here on the Nascopee's return trip.

OTTAWA.—All restrictions on the distribution of new cars have been removed, Reconstruction Minister Howe announced in the commons.

Since July 1 priority certificates for the purchase of cars have been issued only in exceptional cases but the sale or delivery of cars has been restricted to persons already holding priority certificates. With the action announced, dealers will be free to sell and deliver cars to any person.

"It now is felt that the distribution of motor vehicles can best be handled by normal trade channels and the regulations (restricting sale and distribution) have accordingly been rescinded," Mr. Howe said.

Lifting of priority restrictions does not change in any way the ceiling prices imposed by the prices board.

The priority plan was introduced to channel new cars to essential users as production of passenger cars was resumed. The flow of new cars from automobile assembly lines lagged behind the number of priority certificates and as a result from May 7 to June 30 applications for priorities were accepted and processed, but because of the backlog of certificates they were not actually issued until July 1. Since July 1 no applications for certificates have been accepted.

On Aug. 1 regulations were amended to prohibit the sale or delivery by a dealer of a new car or truck to anyone not the holder of a certificate.

Previous to this, if a dealer had more vehicles on hand than he had unfilled priority certificates he could sell the surplus as he wished. Now, with the rescinding of the regulations, the dealer has complete choice in disposing of his cars and trucks.

## TORCH OF TERROR BURNING AMONG THE VILLAGES DEEP IN SOUTHEASTERN POLAND

RZESZOW, Poland.—The torch of terror burns often among the Polish villages along the San river, deep in southeastern Poland not far from the Russian frontier.

Many homes are burned and Polish settlers strung up on trees by lawless bands officially described as composed mostly of Ukrainian Nationalists, with a sprinkling of one-time Nazi S.S. officers.

These outlaws long have terrorized this section of Poland, but their activities became more pronounced after the government started moving Ukrainians out of Polish territory into Soviet Russia under a repatriation agreement.

Some sources attribute the Ukrainian attacks to resentment at being forced out of their villages to make way for Polish settlers. Others say the bandit bands operating in the province of Rzeszow were organized to levy against farmers for foodstuffs. If the farmers don't deliver, villages are burned and men and women carried off to forest hideouts.

At Terka, bands sweeping in at night from hideouts hanged five Poles and a Ukrainian who was friendly to Poles.

### FOUND OBSOLETE

Planes Of Future Too Speedy For Present Type Bombs

WASHINGTON.—Second Great War bombs have been found obsolete for super-sonic planes of the future and missiles of "radically new design" are being developed, the United States war department has disclosed. It was said that conventional type bombs are inaccurate at speeds equaling the 764-mile-an-hour velocity of sound.

### TESTING CABLE

LONDON.—A new type of under-sea telephone cable for use between Britain and the continent is being tested experimentally between Portsmouth and Ryde in the Isle of Wight. The cable is of the "multi-channel" type capable of handling several simultaneous conversations.

## UNITED NATIONS ASSEMBLY MAY BE DELAYED BY SLOW PROGRESS OF PEACE PARLEY

NEW YORK.—Some officials were certain that the once-postponed meeting of the United Nations general assembly would be delayed again because of the lagging progress of the Paris peace conference.

They were convinced that on Sept. 23—the present starting date for the assembly meeting at Flushing Meadows—the foreign secretaries and other top diplomatic personnel of the United Nations still would be occupied with peace conference matters.

There was a slight possibility that the assembly would open on schedule and coast along with minor issues, such as the UN budget and various administrative problems, until the major delegates return from Paris. It was doubted, however, that this solution would gain much support.

UN Secretary-General Trygve Lie, back from a five-week trip to Europe, was expected to produce some official information on the assembly plans at a news conference. It was pointed out, however, that Lie himself has little reliable information about the possible wind-up date of the Paris parley.

A member of one of the Big Five delegations to UN believed that the assembly meeting might have to be deferred until as late as November unless the United Nations want to begin the meeting without the Big Five foreign ministers and their advisers.

### RECRUITS NEEDED

Royal Canadian Mounted Police Force Is To Be Increased

OTTAWA.—Strength of the Royal Canadian Mounted Police, now 2,464, will be increased by 690 as proper material becomes available, Justice Minister St. Laurent said in the commons.

Less than 200 of the new men needed had so far been engaged.

Replying to questions as to whether the increase in the force was aimed to meet counter-revolution needs, Mr. St. Laurent said the whole force was available for any work required of it.

BRITAIN BLOCKADES PALESTINE TO STOP ILLEGAL JEWISH IMMIGRANTS—To stop further arrivals of illegal Jewish immigrants in the Holy Land, where some Arabs have declared they will fight if the flow continued, Britain has blockaded the Palestine coastline. These members of the camel corps of Trans-Jordan are typical Arab fighters.

Under the proposal to split Palestine into provinces, the Arabs would have one area. Ruler of the British-protected Arab kingdom is Ibn Al Hussein.
